Subject: Event Disclosure

I attended the Museum of Science & Industry's Black Creativity Gala on Saturday, February 19 at the Museum on 57th & DuSable Lake Shore Drive. I attended in my official capacity as Chief Engagement Officer. I was invited by staff for MSI CEO Chevy Humphries. The event is MSI's annual Black History Month celebration and it highlights Black creativity, including through a juried art exhibit - which is the oldest in the country focused on Black artists.
